Danielle,

We have a conference call with Ryan at 11:30 so I may be a little late for the call with EPA. Can you send me the dial in and password numbers?

Thanks,

Dennis

Here are the maps showing the domestic well locations. If you have any questions, please call John Longworth Personal Phone/Ex. 6

Thanks

Tom

John –

Here are some maps FYI on wells along the Animas and San Juan color coded by depth (<100 feet vs. >100 feet).

I asked Rob to screen based on distance from the river (within 1 mile) to get a tally on numbers of wells within the alluvial river valleys. Will let you know what we find.

Just trying to anticipate the information that might be needed re GW.

Mike

Hi Mike,

Attached are some maps of wells around the San Juan and Animas Rivers. One is specifically domestics (which is a percentage number of them).

Rob
